

- NEW COMPACT DESIGN
- STAINLESS STEEL HOUSING
- STAINLESS STEEL HEATER ELEMENT
- STAINLESS STEEL INLET, AND OUTLET TUBES
- COMPATIBLE WITH RO SYSTEM

Dimensions

COMPACT DESIGN

INSTALLATION:

Easy to install quick-connect fittings and convenient connections reduce probability of kinked or twisted water lines.

CONSISTENT PERFORMANCE:

1300 WATT HEATING allows fast recovery time. A large 2.5 quarts (2.4L) reservoir delivers a generous 60+ cups per hour capacity.

RELIABLE PERFORMANCE:

Due to the high temperature of the water, the tank is not under pressure. Our self-contained expansion chamber reduces dripping.

FINGERTIP ADJUSTMENT:

200°F (93°C) hot water at your fingertips adjusts from 140°F (60°C) to 200°F (93°C). Great for cooking, instant coffee, tea or use in a wet bar.

AUTOMATED HEATER PROTECTION:

Self re-setting thermal fuse protects the product in the event of a dry start up.

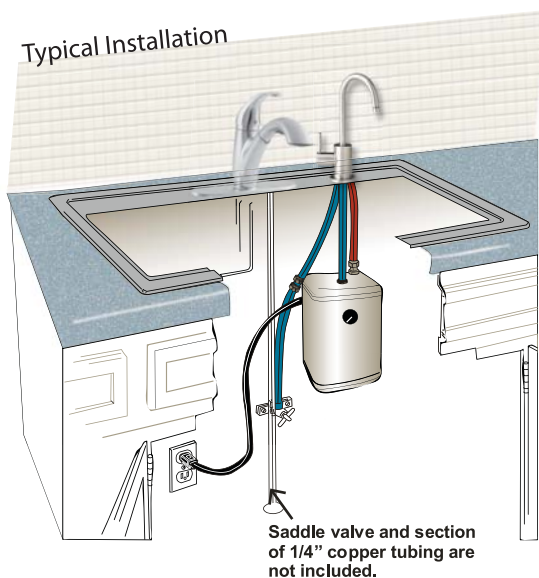

ENERGY EFFICIENT:

Uses less electricity than a 40 watt light bulb. Comes with installed power cord.

WARRANTY:

3 Years Canada and USA

Specifications

Watts	1300	
Voltage	120V	220V
Current-Amps	10.8	5.9
Hz	50/60Hz	
Tank	Insulated stainless steel	
Capacity	2.5 Quarts (2.4L) 60+ Cups Per Hour	
Temperature Range	Adjustable from 140°F (60°C) to 200°F (93°C)
