

## The Woodress Model 1 Mobile Cart | Cleaning Instructions

Use a non-abrasive cloth and a mild liquid detergent or household cleaner. Rinse with water, Please take care not to flood the laminate near the seams/trim since water can penetrate and cause the substrate to swell. Dry the surface with a soft, non-abrasive cloth.

### Painted Panels Cleaning Instructions:

Use a non-abrasive cloth and a mild liquid detergent or household cleaner. Rinse with water, Dry the surface with a soft, non-abrasive cloth.

### Paint Information:

We chose Benjamin Moore Scuff-X for our paint. Scuff-x paint delivers unmatched durability and can be washed with soap and water. It's the ideal paint for high-traffic/high-use surfaces, like our mobile cart body panels.

- Patented scuff-resistant formula
- Low VOC / Low odor
- Great for touch-up
- Withstands repeated washing
- Contains antimicrobial additives that inhibit the growth of mold and mildew on the surface of the paint film
- Engineered with Gennex® Color Technology

### Paint Touch-Up

- Scuff-X matte paint makes it easy to touch up your cart panels. With some paint brands and sheens you can see where the paint was touched up but with Scuff-X the touched up paint blends in seamlessly.
- If you are painting over a small mark or scuff, use a foam brush to touch up. If you'd like to repaint the entire panel I would recommend this 6" velour roller. You will also need a roller handle and a paint tray.
- Dry to touch in 1 hour. Recoat in 2-4 hours. Paint cures in 1 week. Try not to spill or wipe down the paint until after the cure window.
- Starting January 20, 2024, we switched to Scuff-X matte paint. Below the body color you chose for your cart is linked to the Benjamin Moore Scuff-X paint color. You can purchase your paint at a local Benjamin Moore store. If you do not have a local Benjamin Moore store, send us an email and we will send a small can of paint.

### Cart Colors:

- Sugar Paint Color
- Charcoal Paint Color
